TRAVIS SINK
President / Owner

A MESSAGE FROM THE OWNER

"I am proud to be the owner of Carolina Industrial Piping, and am very active in the day-to-day operations of the business. I am personally responsible for executing the company mission, and making sure we consistently adhere to our core values. We operate lean and efficient, which provides great benefits for our company and our customers."

MISSION

To improve the personal and financial well-being of our owners, employees, customers, suppliers, and the communities where we work and live.

This will be accomplished through adherence to our value system and by continually advancing our skills and capabilities in order to be the best in our field of expertise.

VALUES

Hard Work – We desire above average results, and believe it takes an above average work ethic to exceed the expectations of our customers.

Integrity – We will conduct business knowing that honesty is the best policy, and that we always need to "do the right thing" when it comes to our employees and customers.

Accountability – We believe in taking responsibility for one's own actions, keeping promises, and following through on commitments.

Continuous Improvement – We believe that this is a journey that never ends—there is always room for improvement in the way we serve our customers.

WHAT YOU CAN EXPECT

PERSONAL TOUCH

- A welcoming and friendly spirit
- Customers are NOT just numbers to us, they are people whose expectations we want to exceed
- Customers know who in our organization is responsible for taking care of them

FOCUS

- We concentrate our efforts and resources on only the most important tasks
- We keep the customer right out in front of us—constantly forging relationships
- Every single customer, regardless of size, is important to our success

SPEED

- A short chain of command, which leads to ease and speed in making decisions
- A responsive and flexible organization that quickly adapts to our customers' needs

SPECIALIZATION

- We offer only services that we know we are the best at
- Quantity does not always equal quality
